THE WIDOW REDOT TO ELDER SNIFFLS.

Since the first time I heard you preach, I've had an undecidable de-
sire to have some privit conversation
with you in regard to the state of my
mind—your discourse was so wonder-
ful, such that I felt to mourn over
my backslidden state of stupidity
and so I have increased every time I
sat under the drooping of your sancti-
fied. Last night, when I heard of y-
u sickness I felt wonderful overcom-
ing to conceal my agitation, I retired
to my chamber, and burst into a flood
of tears. I felt for you, elder Sniffls—I
felt for you. I was wonderful exercis-
ed in view of your lone condition.

O, it's a terrible thing to be alone in
the world! I know all about it by
experience, for I've been partnerless
for nigh twelve years; it's a trying
thing, but I thought 'twas better to be
alone than to run any risk—for you
know it's running a great risk to take
a second companion, especially if they
are decidedly pious—and then that's
tried to persuade me to change my
condition, and none of 'em give very
satisfactory evidence of piety—'taint
for me to say how many I've refused
on account of their want of religion.
According to my notions, riches and
grandeur are to be compared to religion,
no how you fix it, and I always
told 'em so.

But I was tellin' how overcom I
was when I heard of your being at-
tacked with influenza. I felt like as
it must go right over and take care of
you. I wouldn't desire no better
entertainment than to nurse you up, and
I want to for the speech of the people.
I'd fly to your relief instantly; but I
know't would make talk, and so I'm
necessitated to stay away.

But I felt so concerned about you
that I couldn't help writin' these few
lines to you to let you know how anxi-
ous I be on your account, and to beg
of you to take care of yourself. O
elder, do be careful—the influenza's a
dangerous epidemic, if you let it run
on without attendin' to it in season—
it's a terrible thing to consider what a
terrible thing 'twould be for you to be
taken away in the height of your usefulness,
O, elder, no body wouldn't feel
your loss with more interest than
what I should, though maybe I hadn't
oughter say so.

O, elder Sniffls, I feel as if I could
not part with you no how. I'm so in-
terested in your preachin', and it has
had such a wonderful tendency to
subdue my prejudices agin' your
denominashun, and has not me consid-
ern' whether or no there aint good
christians in all denominashuns, 'cept
of course, the universalists.

O, reverend elder, I entreat you to
take care of your precious health. I
send you herewith a paper of boneset,
you must make some good stiff tea
on't and drink about a quart to night
before you retire. Molasses or vinegar
is a good thing, too, for a cold or cuff,
just take about a pint of molasses and
bide down with a teaspoon of vinegar
and a hunk of butter as big as a hen's
egg, and stir in about a half a teaspoon
full of pepper, and eat it down hot
just after bed time—and take a strip
of flannel and rub some hog's lard on't
though goose ile's about as good, and
I think round your throat with it, and
I send you likewise a bag of hops—you
must dip it in bilin' vinegar and lap it
on yer chest when you go to bed, and
keep a dippin' on't as fast as it begins
to get cold and just afore you get into
bed, soak yer feet in bilin' hot water
with some red peppers in't; now don't
forget nothin' I've presented.

But I am tellin' how exercised
I was when I heard of your sickness.
I went immediately to my chamber,
and gin way to a violent flood of tears.
I retired to my couch of repose, but
my agitations prevented my sleepin'.
I felt quite a sea of misery when you
came over me—so I riz and lit
my candle, and composed these starz
which I hope will be agreeable to you.

O, reverend sir, I do declare,
it drives me almost to frenzy,
To think of you a lyin' there
Down sick with influenza.

A body'd thought it was enough
To mourn yer wife's depar'ture,
Without such trouble as this 'ere
To come a follerin' arter.

But sickness and affliction are trials sent
By the will of a wise creation,
And always ought to be unobtrus'd
With fortitude and resignation.

Then mourn not for your partner's deth,
But to submit and ver;
For sponen she hadent died so soon,
She couldn't a lived forever.

O, I could to your bedside fly,
And wipe your weepin' eyes,
And try my best to cure you up,
If 'twouldent create surprise.

It's a world of trouble we tarry in—
But elder don't despair;
That you may soon be movin' again,
It constantly my prayer.

Both sick and well, you may depend
You'll never be forgot,
By your faithful and affectionate friend,
PRISCILLA POOL BEDOTT.

The Racine (Wis.) Journal says:
For the first time within the memory
of the oldest inhabitant, Lake Michigan
is frozen over as far as the eye can
reach—the ice being from four to eight
inches in thickness.

THE NATIVITY OF COLUMBUS.

Columbus, now the seat of govern-
ment of Ohio, and quite a flourish-
ing city of thirty three thousand inhabi-
tants, once upon a time, as the historian
would say, had a beginning.

The seat of government from the
organization of the state in 1802, to
1810, was at Chillicothe. Then a
movement was started to establish a
permanent location. Now Zanesville
was a rival town, situated on the Mus-
kingum river, with a water power, a
navigable river, salt wells, where a
large portion of the salt used was ex-
changed for wheat that was manufac-
tured into flour for the New Orleans
market.

Mo'es Dillon had a foundry for cast-
ing stoves and hollow ware, sugar ket-
tles, etc. I lived in Lancaster, Fair-
field county, a town of 1100 inhabi-
tants, situated on the main road
from Wheeling through Zanesville,
Lancaster and Chillicothe to Limestone,
now known as the Zanesville and
Maysville turnpike.

Excuse this diversion. At the meet-
ing of the legislature in Chillicothe, a
resolution was offered by a member,
asking the legislature to name a place
where these sessions should be located,
permanently, and left a blank for the
decision of such place as should be
agreed upon. Our member from Fair-
field county was a farmer who had in-
grated to Ohio from Lancaster county,
Pennsylvania, and was a warm friend
for his county, but not very politi-
cally. He moved that the blank be
stricken out and Lancaster be put
on't. This motion was not carried, and
Zanesville was inserted in the blank.
The sessions of 1811-12 were held at
Zanesville.

A commission was appointed by the
legislature at Zanesville, consisting of
five: James Finley, Willys Silman,
Joseph Darlington, Rezin Beall and
Wm McFarland, who were instructed
to meet at Franklin county. The ob-
ject of this meeting was to examine
several sites as near the center of the
state as possible other things being
equal. At this time a large part of the
county of Franklin, east, was a wilder-
ness.

Now a geographical difficulty pre-
sented itself and how to settle it satis-
factorily was a question.

One of the first and early settlers, Col.
Abram I. McDonald, told me how it
was done; and it is too good to keep
Col. Bonnet of Ross county, had got
up a map of Ohio, which was after-
wards published by John Kilbourne,
on heavy paper, and sold all over the
country. Well, the commissioners
got a copy of this map and cut all the
paper from the outside lines; then bal-
anced the paper map on the forefinger,
and they found the exact center of
the state, this point being east from
the Scioto some miles, and as it was
important to have a navigable stream
from the seat of government, the pre-
sent site, then a bluff of high land, and
just below the junction of the Whet
stone and Scioto rivers, making a fine
outlet by water to New Orleans, by
the Ohio river, was agreed upon by
the commissioners; and after a deal of
parley with Lynne Searling, James John-
son, Alex McLaughlin and John Krier,
proprietors of the land, the legislature
of Ohio passed the law making this
site for the first twenty-eight years, to
1840, the seat of government; and in
1847-48, the legislature again passed
the law making Columbus the great
capital of Ohio for a term only limited
by the constitution.

TOBACCO—BY A SMALL BOY.

Tobacco grows something like cab-
bage, but I never saw more of it bod-
ed, although I have eaten boiled cab-
bage and vinegar on it, and I heard
men say that the cigars that was given
them on election day for nothing was
cabbage leaves. Tobacco stores are
mostly kept by wooden Indians, who
stand at the door and try to fool lit-
tle boys by offering them a bunch of ci-
gars, which is glued to the Indian's
hands, and is made of wood also. Hogs
do not like tobacco; neither do I. I
tried to smoke a cigar once and it made
me feel like epson salts. Tobacco
was invented by a man named Walter
Raleigh. When the pe ple first saw
him smoking they thought he was a
stupid, and as they had never seen a
steamboat they were frightened. My
sister Nancy is a girl. I don't know
whether she likes tobacco or not.

There is a young man named Leroy
who comes to see her. He was stand-
ing on the steps one night, and had a
cigar in his mouth, and he said he
didn't know as he would like it, and
she said, Leroy, the perfume is agree-
able. But when my brother Tom
lighted his pipe, Nancy said, 'Get out
of the house' you horrid creature, the
smell of tobacco makes me sick.'

A remarkable story comes from
Bombay, which suggests the propriety
of employing monkeys as police de-
tectives. A Madras man making a juar-
rey took with him some money and
jewels and a pet monkey. He was
waylaid, robbed, murdered and buried
by a party of a-w-a-s. The monkey
witnessed the whole affair from a tree
top, and as soon as the villains had
departed he went to the nearest police
station, attracted his attention by signs
and grans, and finally led him to the
grave of his master. He then enabled
the officer to recover the stolen prop-
erty from the place where it had been

you must make some good stiff tea
on't and drink about a quart to night
before you retire. Molasses or vinegar
is a good thing, too, for a cold or cuff,
just take about a pint of molasses and
bide down with a teaspoon of vinegar
and a hunk of butter as big as a hen's
egg, and stir in about a half a teaspoon
full of pepper, and eat it down hot
just after bed time—and take a strip
of flannel and rub some hog's lard on't
though goose ile's about as good, and
I think round your throat with it, and
I send you likewise a bag of hops—you
must dip it in bilin' vinegar and lap it
on yer chest when you go to bed, and
keep a dippin' on't as fast as it begins
to get cold and just afore you get into
bed, soak yer feet in bilin' hot water
with some red peppers in't; now don't
forget nothin' I've presented.

But I am tellin' how exercised
I was when I heard of your sickness.
I went immediately to my chamber,
and gin way to a violent flood of tears.
I retired to my couch of repose, but
my agitations prevented my sleepin'.
I felt quite a sea of misery when you
came over me—so I riz and lit
my candle, and composed these starz
which I hope will be agreeable to you.

O, reverend sir, I do declare,
it drives me almost to frenzy,
To think of you a lyin' there
Down sick with influenza.

A body'd thought it was enough
To mourn yer wife's depar'ture,
Without such trouble as this 'ere
To come a follerin' arter.

But sickness and affliction are trials sent
By the will of a wise creation,
And always ought to be unobtrus'd
With fortitude and resignation.

Then mourn not for your partner's deth,
But to submit and ver;
For sponen she hadent died so soon,
She couldn't a lived forever.

O, I could to your bedside fly,
And wipe your weepin' eyes,
And try my best to cure you up,
If 'twouldent create surprise.

It's a world of trouble we tarry in—
But elder don't despair;
That you may soon be movin' again,
It constantly my prayer.

Both sick and well, you may depend
You'll never be forgot,
By your faithful and affectionate friend,
PRISCILLA POOL BEDOTT.

The Racine (Wis.) Journal says:
For the first time within the memory
of the oldest inhabitant, Lake Michigan
is frozen over as far as the eye can
reach—the ice being from four to eight
inches in thickness.

THE WIDOW REDOT TO ELDER SNIFFLS.

Since the first time I heard you preach, I've had an undecidable de-
sire to have some privit conversation
with you in regard to the state of my
mind—your discourse was so wonder-
ful, such that I felt to mourn over
my backslidden state of stupidity
and so I have increased every time I
sat under the drooping of your sancti-
fied. Last night, when I heard of y-
u sickness I felt wonderful overcom-
ing to conceal my agitation, I retired
to my chamber, and burst into a flood
of tears. I felt for you, elder Sniffls—I
felt for you. I was wonderful exercis-
ed in view of your lone condition.

O, it's a terrible thing to be alone in
the world! I know all about it by
experience, for I've been partnerless
for nigh twelve years; it's a trying
thing, but I thought 'twas better to be
alone than to run any risk—for you
know it's running a great risk to take
a second companion, especially if they
are decidedly pious—and then that's
tried to persuade me to change my
condition, and none of 'em give very
satisfactory evidence of piety—'taint
for me to say how many I've refused
on account of their want of religion.
According to my notions, riches and
grandeur are to be compared to religion,
no how you fix it, and I always
told 'em so.

But I was tellin' how overcom I
was when I heard of your being at-
tacked with influenza. I felt like as
it must go right over and take care of
you. I wouldn't desire no better
entertainment than to nurse you up, and
I want to for the speech of the people.
I'd fly to your relief instantly; but I
know't would make talk, and so I'm
necessitated to stay away.

But I felt so concerned about you
that I couldn't help writin' these few
lines to you to let you know how anxi-
ous I be on your account, and to beg
of you to take care of yourself. O
elder, do be careful—the influenza's a
dangerous epidemic, if you let it run
on without attendin' to it in season—
it's a terrible thing to consider what a
terrible thing 'twould be for you to be
taken away in the height of your usefulness,
O, elder, no body wouldn't feel
your loss with more interest than
what I should, though maybe I hadn't
oughter say so.

O, elder Sniffls, I feel as if I could
not part with you no how. I'm so in-
terested in your preachin', and it has
had such a wonderful tendency to
subdue my prejudices agin' your
denominashun, and has not me consid-
ern' whether or no there aint good
christians in all denominashuns, 'cept
of course, the universalists.

O, reverend elder, I entreat you to
take care of your precious health. I
send you herewith a paper of boneset,
you must make some good stiff tea
on't and drink about a quart to night
before you retire. Molasses or vinegar
is a good thing, too, for a cold or cuff,
just take about a pint of molasses and
bide down with a teaspoon of vinegar
and a hunk of butter as big as a hen's
egg, and stir in about a half a teaspoon
full of pepper, and eat it down hot
just after bed time—and take a strip
of flannel and rub some hog's lard on't
though goose ile's about as good, and
I think round your throat with it, and
I send you likewise a bag of hops—you
must dip it in bilin' vinegar and lap it
on yer chest when you go to bed, and
keep a dippin' on't as fast as it begins
to get cold and just afore you get into
bed, soak yer feet in bilin' hot water
with some red peppers in't; now don't
forget nothin' I've presented.

But I am tellin' how exercised
I was when I heard of your sickness.
I went immediately to my chamber,
and gin way to a violent flood of tears.
I retired to my couch of repose, but
my agitations prevented my sleepin'.
I felt quite a sea of misery when you
came over me—so I riz and lit
my candle, and composed these starz
which I hope will be agreeable to you.

O, reverend sir, I do declare,
it drives me almost to frenzy,
To think of you a lyin' there
Down sick with influenza.

A body'd thought it was enough
To mourn yer wife's depar'ture,
Without such trouble as this 'ere
To come a follerin' arter.

But sickness and affliction are trials sent
By the will of a wise creation,
And always ought to be unobtrus'd
With fortitude and resignation.

Then mourn not for your partner's deth,
But to submit and ver;
For sponen she hadent died so soon,
She couldn't a lived forever.

O, I could to your bedside fly,
And wipe your weepin' eyes,
And try my best to cure you up,
If 'twouldent create surprise.

It's a world of trouble we tarry in—
But elder don't despair;
That you may soon be movin' again,
It constantly my prayer.

Both sick and well, you may depend
You'll never be forgot,
By your faithful and affectionate friend,
PRISCILLA POOL BEDOTT.

The Racine (Wis.) Journal says:

FRESH GRAPES.
The Stockton (Cal.) Republican says:
"We once knew a gentleman who ap-
plied his table with fresh grapes from
one season to the other. His plan
was to gather when quite ripe the
largest and freshest bunches of grapes
and pack them in sawdust, using in-
stead of boxes, common nail kegs
which he purchased for a trifle at
hardware stores. After carefully pack-
ing the desired number of kegs, he
buried the lot in a trench dug in high
ground beneath a shed where the wa-
ter could neither fall nor soak in. Be-
fore using the saw dust he carefully
dried it either in the sun or in an oven
until it was entirely free from moisture.
We never witnessed the packing pro-
cess, but we know he always had
grapes, and in this way he told us he
increased them. After being buried
for months the grapes were as sweet
and finely flavored as if just gathered
from the vines. The process is cheap
and may be easily tested. If it will
preserve the grape, a few and profit-
able business might be built up.
Bunches of fresh grapes in the spring
would be a novelty, and being that
would command a high price. We
hope that some of our grape growers
will try the experiment."

GOOD EXAMPLE.
Governor Leslie, of Kentucky, sets
a good example for public men
and legislators. He allows no kind of
spirits, malt or vinous liquors at
his levees or dinners. We understand
Governor Noyes, of Ohio, has adopted
a similar rule. These are items worth
recording, and it is to be hoped that
this paragraph may receive many ad-
ditional examples of sobriety and good
sense ere it has gone the rounds of
the press. The better class of citizens
will respect and support their govern-
or, no matter what may be his political
opinion, if he shows himself to be a
man who feels and is prepared to ac-
knowledge the responsibility of his po-
sition. We can safely trust the con-
science of any man who is brave
enough to defy an incorrect sentiment
from a sense of official duty.—Christi-
an World.

'You've got no wife, I believe,' said
Mr Blank to his neighbor.
'No, sir, was the reply, 'I never was
married.'
'Ah,' said Mr Blank, 'you are a
happy dog.'
A short time after Mr Blank, is ad-
dressing a married man Blank.
'You have a wife, sir?'
'Yes, sir—a wife and three chil-
dren.'
'Indeed,' said Mr Blank, 'you are a
happy man.'
'Why, Mr Blank,' said one of the
company, 'your remarks to a married
and unmarried man seem to conflict
somewhat.'
'Not at all—not at all, sir. There is
a difference in my statements. Please
be more observing, sir. I said the
man who had no wife was a happy
dog, and I said the man who had a
wife was a happy man. Nothing con-
flicting, sir—nothing at all. I know
what I say, sir.'

An English firm is doing quite an ex-
tensive business in supplying Austria
with iron dwelling houses manufactur-
ed in England and set up at short no-
tice by English mechanics wherever
the purchaser desires. The houses
that are most in demand are those
which have two, four, or six rooms,
the purchases being generally the bet-
ter class of Austrian aristocrats. The
great want of the advanced work-
men of large continental cities has long
been for small comfortable dwellings,
and this want is being rapidly met by
the introduction of the English houses
of iron, which are not only warm,
strong and reasonably elegant, but
cheaper than can be built in Vienna,
at least of any domestic material. The
iron houses of America are, with very
few exceptions, large and costly, no
attempts having been made

Two Dollars a year, in advance.

Massillon, Wednesday, March 20.

The Erie ring, at the head of which was the late Fisk, Jay Gould, and such men, who are charged with having stolen the road from the stockholders, was, one day last week, bursted up, destroyed—the rascals put down and honest men put in their places. As president of the road Gen. Dix takes the place of Gould, and a new board of directors is chosen. Wilkes Booth's bullet cannot ~~be~~ a nation to mourn—Stoker's bullet dispersed a gang—of as big rascals, in the way of railroad operators, as would challenge this or any other nation.

The cheese manufacturing business seems to be extending. Quite a number of these operators are at work to the north of us and now we see that one is about to be established at New Waterford, Columbiana county.

The Herald of Health for March opens with a paper written by Addison for the Spectator in the year 1711, on Exercise and Regiment, and contains besides a valuable article on Important Aids to the Art of Life, Wearing and being off of Flannels, and a great variety of excellent articles. Every parent who would rear healthy and beautiful children, and preserve them from early decay, should have this journal. The Scientific American says: "It contains more sensible articles than any magazine that comes to our sanction." Price, \$1.25 a year; 12 cents a number. Wood & Holbrook's 15 Laight st., New York.

Our Boys for March is the best yet published of that admirable publication.

It is emphatically the Youths Own Journal 50 cents a year. Specimen and premium list sent upon receipt of a stamp.

Address OUR BOYS, CHICAGO, ILLINOIS.

Hon. J. T. Undergraf, in a speech recently delivered in the Ohio Senate uttered the following epigram: "The profound scholar can always find plain English in which to clothe plain sense, but I never knew a quack that wasn't rich in Latin names for catnip tea or mustard plaster."

The Massillon Hardware Store. We have an assortment of shelf and heavy hardware, and all of which was bought for cash. We sell it now at the lowest. Call and see for yourself. KELLEY & BROWN, Erie street.

Old prejudices are dying out. New facts are killing them. The idea that invalids weakened by disease can be relieved by prostrating them with destructive drugs is no longer entertained except by mountebanks. Ever since the introduction of Dr. Williams' Pink Pills it has been obvious that their regulating and invigorating properties are a sufficient remedy for the cure of all indications, and modern facts, and they are now the standard remedy for these complaints in every section of the Union.

LOCAL MATTERS.

The Episcopal dime society will meet at the house of Mrs. Hattmaker on Friday evening March 22d.

D. R. Atwater, we are informed, has been appointed collector of the port at Massillon.

M. Schafer will be a candidate for assessor in the second ward at the spring election.

We are requested to announce the name of Charles London as a candidate for Mayor at the coming spring election.

Many of our citizens request that we announce the name of Edwin Jarvis, Esq., as candidate for nomination by the republican party, for Mayor, at the coming primary meetings.

PROF. M. J. DENNIS

of Cincinnati, will deliver a course of six lectures on Jerusalem, in the Christian Chapel, commencing Monday, Evening March 23. Prof. Dennis having resided 12 years in the Holy City, is prepared to give life scenes of rare interest. Do not fail to attend.

A good many of the papers, have been suggesting that the man who decides that the coming peach crop has gone up, and that the potato bug is to eat all the coming crop of murrhies, has not yet issued his prophecies. He may yet come along and speak his piece, but it won't stop the growth of even a leaf of clover. It is true the winter has been a hard one, and the fields generally have been bare of snow, yet we don't hear farmers rising the cry that the wheat crop of 1873 is to be a failure—and they can tell something about these things, for they have been making observations and learning the ways and wherefores and effects of the changing seasons.

Indications are thickening all around that the opening spring will witness an unusual activity in business. The papers seem almost unanimously inspired with a prediction of success in all the legitimate channels of trade, as well as in the indispensable avocations of husbandry and manufactures. The long months of seeming torpority in consequence of drought and unusual cold are hastening to an end, and everything is about to thaw and move along with renewed life and vigor. As we reported two weeks ago Massillon is in a healthy condition financially, and the prospects for a season of more than ordinary activity in trade and manufactures are opening on every side. For these reasons and others which might be suggested, it is a good time to advertise. We have a little room to let in that way.

A ready-made of an editor of a friends is beginning to calculate the sweet and sour of a sugar making, and the luxury of satisfaction. Think it very probable that all some of the know about sugar making is the entire part to which almost everybody is partial. If anybody imagines it is play to go through the process of sugar making, it is very few days experience in the camp will convince such that the entire operation is about the same as working with very little play mixed in.

Mr. Myers, the fish dealer, supplied many of the people last week with fish. The specimens were none of them very large, but not less acceptable on this account. In a short time the market will be supplied with several dealers.

FOR RENT—A room well fitted with fixtures, suitable for manufacturing purposes, over W. E. London's store.

In consequence of the sickness of Mr. Williams, and the recent absence of Mr. Hingeley the duty of attending several funerals within a few days has devolved on Mr. Dean, who has faithfully performed his duty on these solemn occasions.

Our committee who has charge of the water works and keeping the fire plugs in order has long been known for diligence and success in this much needed department. In consequence of the city's safety, but the severe and protracted freezing of this winter did not even spare all the fire plugs, and it became necessary last week to actually thaw some of them loose, as there is no knowing when they may be called into requisition to extinguish a conflagration. Nobody can justly blame the gentleman who looks after these things, for nobody could prevent the cold days and nights, and consequent freezing of all the water that was accessible to the fierce breath of the frost king.

A terrible explosion took place on Saturday afternoon at the powder mills, which stood about five miles south of Cleveland. The shock was so great as to shake the most substantial buildings in the city, and for a few moments everybody there was panic-stricken, supposing another earthquake had visited the place. Four buildings were blown to atoms, several persons were killed and injured and two men instantly killed by the explosion. The loss is estimated at from \$50,000 to \$30,000. Several times before similar accidents have befallen the same establishment—Austin's Powder Mills—and often have the works been rebuilt. What will be done about it this time remains to be seen.

A large number of our citizens will remember the highly interesting course of lectures given in this place by Prof. Dennis, who graphically described that interesting region of the east known as Palestine, and especially concerning Jerusalem and vicinity. It is with satisfaction that we announce that Mr. Dennis will give another course of six lectures, commencing on next Monday evening, in the Christian chapel, where he will more fully describe the locations above named, and probably refer to other places with which he is familiar. Be sure to go and hear him.

It is a howling time with the Columbus geologists. So badly frightened are they by some fifty have closed their doors, and a few have fled to the place of refuge. All the Columbus geologists, and the wicked are scolding the geologists are going on conquering and to conquer.

Carpets! Carpets!! A full line of Carpets just arriving at McLain, Dangler & Co's.

Our neighbor across the way, Mr. S. A. Conrad, will soon be supplied with a new stock of hardware, as he has just gone east for that purpose. His place of business is known favorably in this part of the country. The usual extensive variety in his line is always to be had at this store.

Last Thursday morning a good many of our citizens were waked up by the melodies of a free concert, the performers being robins and blue birds. The little fellows had a cheery time in greeting their hearers with a full orchestra of nature's harmonies, all of which was most welcome to their auditors. But on that evening one of the hardest snow storms of the season set in and that destroyed further musical entertainment for that time.

Nast, the inimitable and incomparable caricaturist, don't seem to tire in providing the most cutting cuts for Harper's Weekly. Every week there are new evidences of his skill in holding up some transgressor. The New York ring is well immortalized by his cartoons, and Tweed's countenance must be familiar wherever the ubiquitous Weekly penetrates.

Bro Hingeley is returned to this station another year—bro Lynch remains at Salem, and bro Hunter retains the position of elder in this district. The next conference is to be held at Salem.

J. Sturte Kelley, of the firm of Kelley & Brown left town the other day for the purpose of purchasing a stock of new goods. This old and well known hardware establishment is well-sustained in its management by the present enterprising proprietors. They keep everything in their line—and the variety is legion.

Notwithstanding the extreme cold some work has been in progress at different points on the railroad, but contractors are waiting until a thaw comes, when they expect to enter upon their labors with greater activity, and in stronger force than they have yet done. As Grant said, during the war they will push things. The almost universal freezing has very much paralyzed a host of avocations beside railroad making. From present indications it don't look very much as if our farmers will sow much flax this spring on Good Friday, for the chance of plowing is very poor.

As Bro. Hingeley was away at conference on last Sunday Bro. Johnson supplied his place in the M. E. church.

We have not yet heard much talk about the coming spring election, which comes now in a few days. A number of township and municipal officers have to be elected on the first Monday of April, and it is probable there will be plenty of candidates. A much more business is going on these days that will be well for voters to look out for the candidates they support. A sober, judicious, honest, upright man only should be entrusted with the duties of even the minor offices, and as these positions rise in responsibility, so the greater care should be taken to select the best qualified mentally and morally as well as politically for the positions to which they aspire. There are plenty of good men—very few such only.

By the papers we notice that at the sitting of the present term of common pleas court two cases of pretty heavy damages have been awarded to sufferers. One was at Canton, where a man was injured by falling in consequence of a defect in the sidewalk. He received some \$500. A similar case came up from Alliance, where the town was assessed in damages to the amount of \$100. These things come of having sidewalks out of fix and defective lights—possibly both.

From all we can ascertain be these who have the practical means of knowing, the earth is safe to be frozen to the depth of two feet, and more in some places. It is not usual to have such depth of freezing, but this time it began in October—tenth month—and has not yet gotten to thaw, now the latest part of winter—third month—so we can set it down as continuous freezing for about five months. No wonder everything that is frozen is bound. But the sun's direct rays will melt the frozen earth in due season.

A report (is it sense or nonsense?) appears in the last Alliance, to the effect that two women purporting to come from Cleveland, telegraphed to a certain young man at Canton to meet them at the depot of that city. The meeting took place as they wished, on Monday of last week. So on the two were at one of the head grocers of Canton, where the Amazons made known their business with the youth by each drawing a new knife from her sheath, and immediately proceeded to slash him all over the body. Their reason for this was, they said he had been saying something not respectable about them. Having finished their flagellation they walked out of the groshop, and by some means a carriage was in waiting for these women, which brought them to this city, where they took an eastern bound train—went to Alliance, remained over night, and next day returned to Cleveland. Were they first women?

In referring to the late improvements made in the Massillon Steam Mill we unfortunately gave the wrong man's name as proprietor. Instead of Mr. Heppard it should have been Mr. Taylor, who is the enterprising owner of this well known property. He is entitled to the credit of making the several improvements to which reference was made last week.

This year completes the twenty-fourth Olympiad of our nation's independence. Consequently it is the year for electing the president—and it is leap year. Some of the brethren have leap year on the brain, and it breaks out in some shape almost every week.

P. T. Barnum, the prince of showmen, is about to travel over the country with a rare collection of singular curiosities. In a descriptive account of some of the objects of curiosity are brief notices of the "Circusian" cat, which rides and performs all the feats of an equestrian, a life of Ellips in costume, sea lions and a hundred other queer things, such as only Barnum can bring together. Make room for the great showman.

Massillon, January 23-442—3 months

We see by the list Monday that Elsie Teeters purchased the Alliance college for the sum of \$25,000. There is some talk of using this fine building for a schoolhouse. It is a substantial well built edifice, and cost several times \$25,000, but will answer for a model schoolhouse.

On Monday, March 15th, 1873, J. J. Walls and wife were married, and on the 1st Friday evening was the 25th anniversary of that event. Quite a number of their friends gathered at the residence of Mr. W. and wife on the evening above named to congratulate them on the completion of the first quarter century of their married life. The entire party had a most agreeable time, and as is the custom in such society cases, the visitors contributed quite a number of valuable presents to their worth and best wishes, who entertained them sumptuously, with the best that accomplished and intelligent housekeepers can prepare. May they live and prosper another quarter of a century, which comes Monday, March, 1897, when a good opportunity will offer their friends another chance to have a good social time.

On next Monday the spring examinations of the Union school of Massillon commence. A customary on such occasions we present our citizen are respectfully invited to be present and witness the progress of the different classes have been making within the last year. We all are apt to grow in on such occasions, which is well enough, but if we should make a practice of going to the schools half dozen or more times a year it would indicate that we feel that interest in their welfare to which they are so well entitled. The importance of these people's colleges can be over estimated. So go to the examinations next week, all those who can do so.

A B. Way, of Alliance, who has been charged with sundry unlawful offences, and who was in Canton prison for some weeks, has been indicted for forgery, but is now out on bail, J. T. Purdue, of Minerva, appearing as bondsmen. So says the Local.

Our worthy postmaster, Mr. Brown, has decided that hereafter the postoffice will be opened half an hour on Saturdays, from 12 M. to 12-30 P. M. This seems necessary in order to accommodate many business men, because of the late arrival of the Cleveland mail on Saturday night. It is customary to keep post offices open in many towns and cities for a short time every Sunday, and there is no reason why Massillon should be an exception to the rule. It looks to us as if Sunday can stand it if the rest of us can.

Within a few days the sheriff or some of his deputies captured hosts of our citizens to take them to Canton and use them as witnesses in the late murder case. The state has to bear the heavy expense of these trials, originating in whisky and other intoxicating drinks.

Last Sunday was St. Patrick's day in the morning. It was kept here very quietly. In Ireland they demonstrated quite vigorously, also did the Celts in many places in this country.

Old Probability, as the weather recorder is often called, has for long weeks been telling us of rising barometer, until everything seems as dry as powder horn. Hope he will soon report a falling barometer, for that is said to indicate rain.

The March number of the People's Monthly of Pittsburgh is at hand, and we must say it is the best and finest yet issued. The illustrations are unusually beautiful, fully equal to anything from New York. The contents of this number are as varied as usual, and the whole paper is a credit to the west, where it ought to have a general support. The chief attraction in this issue, however is the new serial—historical and illustrated—called Old Fort Duquesne. The story opens out well, and promises to be exceedingly thrilling and absorbing. All who can should read this story, introducing most of the Indian chiefs and red and white scouts notable at that period. It will run through twelve numbers. Price, \$1.50 a year, Address, People's Monthly.

The Salem Republican announces the following names as talked of candidates for congressional nomination by the republicans of this district: J. Danbar and J. T. Undergroff of Jefferson; J. W. Undergroff, H. S. Martin, A. C. Wales, Geo. Marsh and John Hunter of Stark. Mr. Allison, of the Steubenville Herald, refuses to be a candidate. This is probably all talk by the friends of the gentleman named, at least for the present.

In the list of jurors for the U. S. court to be held at Cleveland we notice the name of our fellow citizen, Col. T. S. Webb.

PLANTATION BITTERS.

S. T.—1860—X.

This wonderful vegetable restorative is the sheet anchor of the feeble and debilitated. As a tonic and cordial for the aged and languid it has no equal among stomachics. As a remedy for the nervous weakness to which women were especially subject, it is unsurpassed every stimulant. In all climates, tropical, temperate or frigid, it acts as a specific in every species of disorder which undermine the bodily strength and breaks down the animal spirits. 444-ly

Mexican Mustang Liniment

For Man and Beast.

Probably few articles have ever had so extensive a sale as this. It has been more universally beneficial than the celebrated Mexican Mustang Liniment. Children, Adults, Horses, and domestic animals, are always liable to accident, and it is safe to say, that no family can afford to be without some kind of emollient being necessary. It becomes a matter of importance then to secure the best.

Over three hundred livery stables in the city of New York alone are using the Mexican Mustang Liniment, in all of which it gives unusual satisfaction.

CAUTION.—The genuine is wrapped in a fine steel plate embossed with G. W. Mustang Liniment, and Trade Mark, Mexican Mustang Liniment, engraved across the face of each wrapper. The whole bears the proprietor's private U. S. revenue stamp, and not a common stamp as used by druggists. Lyon Manufacturing Co., 53, Park Place, New York, no. 447-ly.

The best assortment of Guns, Revolvers, and Sporting Goods generally at Kelley & Brown's.

Trial Bottle</

Soft soap in some shape please all, and generally speaking the more you put into it the better.

There is a glen in Meiden, Conn., twenty miles from the sea, eight hundred feet above the sea level, and so secluded from the sun's rays that ice is preserved the year 'round.

An Irishman who was recently run over by a train of cars, got up and asked for his hat, and said, 'I would not run another such a risk as that for tin dollars.'

Mrs. S. D. Garby, of Mechanicsburg, who had her child in her arm, put coal oil on the fire, when it caught and exploded the can, and burned her and the child so badly that they are not expected to live.

Boston is not so destitute of rich men as has been represented. She has one worth \$18,000,000, another \$8,000,000, and six are worth \$5,000,000, each, and any number who ought to be worth a million if they are not.

A shrewd little fellow was entrusted to the care of his uncle, who fed the boy very poorly. One day he happened to see a greyhound whelp upon the street. The little fellow if he knew who made the dog so poor. The reply was 'I expect he lives with his uncle.'

Washington territory has more than doubled its population during the last ten years, has \$1,500,000 worth of taxable property, and the annual exports are valued at \$400,000. Its saw mills get out 140,000,000 feet of lumber annually.

Lehigh county, Pa., has the largest stationary engine, and longest and highest iron railroad bridge in the world.

A young man advertises in a country paper for a place as a salesman, and says he has had a great deal of experience, having been discharged from seven different situations within the year.

A little boy was recently presented with a toy trumpet to which he became greatly attached. One night when he was about to be put to bed, he was about to say his prayers, he handed the trumpet to his grand-uncle, saying, 'Here, gran'm, you blow while I play.'

Mrs. Leiby, of the town of Dale, Wis., retired one night recently, taking her infant with her, which was apparently perfectly well. When she awoke in the morning she found the child dead in her arms.

'Reversible clothes' are being introduced into the market. A refined gentleman of New York says that he never really knew what clean linen was until he obtained a shirt which he turns once a week.

The English expedition to search in the interior of Africa for Dr. Livingstone has left London, the necessary funds having been subscribed to defray its expenses.

An honest country parson, in the time of great drought, who was desired to pray for rain, answered: 'I'll willingly do it to oblige you, but it is to no purpose while the wind is in this quarter.'

Tax payers: Over 60 cts of every dollar you pay for taxes goes to pay such bills as forty millions of dollars a year for crime; thirty two millions for pauperism; and twelve millions for insanity, all directly induced by intemperance.

The Jersey City Schutzen corps have bought the Wright mansion at Weehawken, New Jersey, and it will be turned into a great casino, accommodating 10,000 persons. A concert hall, ball room and shooting galleries will be erected in the spring, at a cost of \$50,000.

The Pittsburgh Commercial justly remarks that advertising as a means of prosperity is not as well understood as it should be. It is a fact that no one who has advertised liberally and systematically has felt like disputing that it was the best spent money he ever put into his business. As a horse was never made fat by a single bushel of oats, so a single advertisement is never a perfect test of the benefits of advertising.

Mr. Beecher, in a recent sermon, affirmed that St. Paul's directions respecting the silence of women in divine service are to be taken as merely local, national and transient, and that in our time any woman may speak in church who has anything to say. We do not see why they should not.

A publishing house in Boston had recently employed an Irishman as porter, and one day one of the firm wanted to send him to Berkeley street. 'Jim,' said he, 'do you know where Berkeley street is?' 'Yi-vi-vi, sir. Oh! yia, sure, sure, an' I know.' Jim's manner was too hesitating, and his answer did not satisfy his employer. So he asked again, 'Are you right sure that you know where Berkeley street is?' 'Oh! yia, sir. I know we'll enough where Berkeley street is, but I don't just know it by that name.'

'Doctor,' said an old lady the other day to her family physician, 'kin you tell me how it is that some folks is born dumb?' 'Why, hem! certainly, madam,' replied the doctor, 'it is owing to the fact that they come into the world without the powers of speech.' 'Ta, me,' remarked the old lady, 'now just see what it is to have a phisic education. I've axed my old man more nor a hundred times that at some time, and all that I could ever get out of him was, "kase they is."'

\$37.60. Agents profits per week. Will prove it or forfeit \$500. New articles patented July 18th. Samples free to all. Address W. E. C. Hester, 267 Broadway N.Y.

Wanted.
BOOK AGENTS.
To canvass for an entire new work. Staple as flour. Sells at sight. Both male and female agents are making from \$10 to \$20 a day. Strike early and get choice of territory. Empire Book Co. Cleveland, O.

Wanted, This spring,
10,000 FARMERS.
To improve 1,700,000 acres of the best farming lands in Iowa, free from mortgage or other incumbrance. These lands comprise the government railroad grants adjacent to the great thoroughfares between Chicago, Omaha and Sioux city, and he chiefly in the Middle Region of Western Iowa.

Agents at stations are provided with terms to show lands free to purchasers. Send for a guide. It gives prices, terms, descriptions, where exploring tickets are sold, and how to reach the lands. County maps also sent free. Address JOHN B. CALHOUN, land commissioner Iowa R.R. Land Co., Cedar Rapids, Iowa.

EPILEPSY OR FITS.
A new cure for this distressing complaint is now made known in a treatise of twenty pages, on 'Fits and Epilepsy' by J. P. Reed, M.D., of Massillon, Ohio. The treatise is a simple and practical manual that he cannot conscientiously refuse to make it a cure, as it has cured every body who has used it. For the price of a single cent, the treatise is sent by mail to any address. Send for it now by return mail, free.

THE IMPROVED AMERICAN

Button-hole, Overseaming,
Complete Sewing Machine.

The first and only Button-hole and Sew machine patented that has made its advance in this or any other country.

The following reasons are given why this is the best

Family Machine to Purchase

1. Because it will do everything that any machine can do, saving from the first to the last the cost of material, basting, filling, cutting, braiding, binding, & the time and sewing on at the same time, ruffling, quilting, &c. better than any other machine.

2. Because the tensions are more easily adjusted than in any other machine.

3. Because it can make a beautiful button hole, making as fine a piece as by hand.

4. Because it will embroider over the edge, making a neat and beautiful border on any garment.

5. Because it will make a beautiful eyelet hole.

6. Because it can do overhand sewing, by which sheets, pillow cases, and the like are sewed over and over.

7. Because you can quickly raise or lower the foot to adapt it to thick or thin cloth.

8. Because you have a short deep basting by which the thread is constantly drawn from the center; the tension is consequently even and does not break the thread.

9. Because the presser foot turns back; that cloth can be easily removed after being sewed.

10. Because the best mechanics pronounce it the best finished and made on the best principle of any machine manufactured.

11. Because it has a better shuttle than any other machine.

12. Because it runs easier and quieter than any other heavy machine.

13. Because it is two machines in one—a button-hole working and sewing machine combined.

It is to last a lifetime, and therefore one is wanted that will do the most work, and do it the best, and this machine can do several kinds of sewing not done on any other machine, besides doing every kind that all others can do.

The American or Plain Sewing Machine

Is a beautiful family and light manufacturing machine, possessing all the superior qualities of the combined machine except making button holes and overseaming. In all other respects the principal of construction is the same.

These Machines are Warranted.
wing Machines. Attachments of all kinds, sewing, quilting and oil for sale at Sewing Machine Depot, in rooms of John Low second floor, Opera Block. Don't fail to call and see them.
